Times and technicians

Technician

Technician company	1
Technician Theatre	2

Times

In consultation we determine the times of arrival and building the show. We need 7 hours to build and check the light cues, before starting the concert.

Duration of the concert

Before the intermission	55 minutes
Intermission	20-30 minutes
After the intermission	55 minutes

Productional information

Company

Yoram Ish-Hurwitz	Pianist

Technician

Sound/Video	Marco Beks (subject to change)
Light	Marco Beks (subject to change)

Crew of Theatre

Get in	1 person
Sound/Video	1 person
Lights	1 person

We expect from you a deployment of two professional technicians. Additional efforts with trainees, outside of the 2 professional engineers, is not a problem for us.

Stage

Width	11 meter (36 ft)
Depth	9 meter (29.5 ft)
Height	6 meter (19.7 ft)

Please make the stage a black box.

Productional Rider

Iberia

Sound

For our show we like to use your PA. We need a mixing desk with at least 4 channels.

Theater light

For the light show we would like to use your lighting installation.

Grand piano of the theatre

Dimensions	Steinway Concert Grand – Model D
Tuning	Before get in Technician
Frequency	A1 = 440-442 Hz

The mechanism of the Grand piano must run as smoothly as possible. If necessary, deal with CLP Protek.

Important!

Before the concert Yoram would like to try out the instrument for 45 to 60 minutes without any disturbances. Technicians can do the last necessary things. Before the concert Yoram will retreat in his changing room. Questions can be directed to our technician. We would like to ask you to warn Yoram 5 minutes before commencement and lead him to the stage 2 minutes before the start of the concert. When he is in position of entering the stage, our technician should be notified.

Supplies

We would like to use 2 piano chairs.

Video

We would like to use the following video equipment from you:

Beamer

3000 to 5000 A-lm

Aspect ratio 16:9

Enough video cable (SVGA) from Front of House to Beamer

Video screen

Minimum screen size 7,7 x 4,5 meter (25,3 x 14.8 ft)

Rear projection (preferably)

Front of House

Please situate Front of House for sound, light and video in the middle of the Hall.

Changing rooms

Yoram Ish-Hurwitz	1 changing room
Technician	1 changing room
